1. HOW TO USE THIS GUIDE

DIMENSIONS AND WEIGHTS

- Porta Romana products are all made by hand which means that variations will occur. Dimensions and weights are provided as a guide.
- Where a dimension is shown as an approximate value, i.e. the blown glass products, the variation can be as much as 35mm.
- Where dimensions are shown in inches they are rounded to the nearest 1/4".
- HEIGHT OF TABLE LAMP is always measured from the base of the item to the bottom of the lamp holder.
- HEIGHT WITH SHADE is measured from the base of the item to the top of the lampshade.
- BASE DIMENSIONS are shown as width x depth unless otherwise specified.
- HEIGHT OF WALL LIGHT is measured from the base of the item to the bottom of the lamp holder OR to the top of the product (whichever is the highest).
- PROJECTION OF WALL LIGHT includes the recommended lampshade.
- TOTAL DROP OF CHANDELIER includes the ceiling rose, one metre of chain and fixture.
- MINIMUM DROP OF CHANDELIER includes the ceiling rose, minimum length of chain possible and fixture. The ceiling rose depth and chain or rod lengths are also listed separately.
- LAMP SHADE DIMENSIONS are shown BASE X TOP X SLOPE or BASE X DEPTH X SLOPE (see images below) unless otherwise detailed.

KEY

Symbols have been used to note an important detail of a product.

Items with this symbol have external wiring, and the flex exits from the lampholder.

Items with this symbol have a lampshade that requires wall fixing.

Items with this symbol can be adapted for use in bathrooms. See page 182 for more information.

Table lamps with this symbol are suitable for rodding and bolting (for use on yachts).

Items with this symbol are suitable for customisation. See page 178 for more information.

FLEX

TABLE LAMPS

- Most table lamps are wired with Silver, Brown or Charcoal silk flex. Some pieces have colour co-ordinated flex i.e. Magenta. Flex colours are listed on each individual product entry.

CEILING LIGHTS

- Ceiling lights are also supplied with colour co-ordinated flex. Flex colours are listed on each individual product entry.

QUICK SHIP SERVICE

Items marked with **QUICK SHIP** are available on our Quick Ship service in the finish and lampshade combination listed. If requested this product will be despatched by express courier from our UK Head Office within 72hrs of order confirmation and receipt of payment. Subject to stock levels. See page 9 for further details.

PRICING

- Prices are valid from 1st February 2018 - 31st January 2019.
- Retail prices are shown in Euros and are exclusive of tax, duties and freight.
- Shade prices are shown in silk/satin/linen/silk-linen with card lining. Please refer to the lampshade section for alternative lining options and pricing.
- Charges for crates are not discountable.

2. LAMPSHADE GUIDE

THE PERFECT SHADE

At Porta Romana, we strive for perfection in every aspect of our designs, and that includes our Gold Standard lampshades - from the gauge of the wire to the position of the wattage label, our attention to detail means a Porta Romana lampshade is second to none.

Our silks, satins, linens and velvets are developed alongside the craftsmen and women who weave them, the transparencies of our linings have been created purposefully to give the right glow when our shades are lit, the seams of our shades are beautifully stitched and our packaging has been redesigned to ensure environmental harmony, and ease of unpacking. The ambition to create perfection is in our DNA, we want you to love what we do.

LAMPSHADE GLOSSARY

There are a few details which are specific to our lampshade vocabulary and are explained here.

BAFFLE/DIFFUSER

A disc of Perspex which can aid light diffusion. Diffusers go to the bottom of a shade, and baffles to the top. Available in three colour choices.

- Frosted White, providing maximum light output
- Champagne, gives a warm glow with minimum light output
- Pearl, a lustrous glow and a medium light output

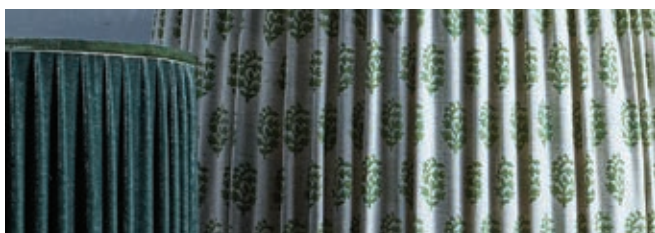

BAFFLE

DIFFUSER

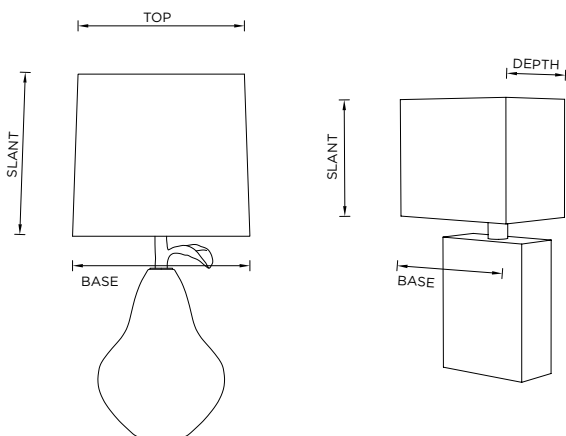

CUSTOMERS OWN MATERIAL (COM)

We can make any shade in your own fabric provided that we have seen and checked the suitability of your fabric in advance. We always recommend that your fabric is supplied on a roll rather than folded to prevent creasing in the final product.

DIMENSIONS

Lampshade dimensions are always shown as BASE x TOP x SLOPE or BASE x DEPTH x SLOPE unless otherwise detailed.

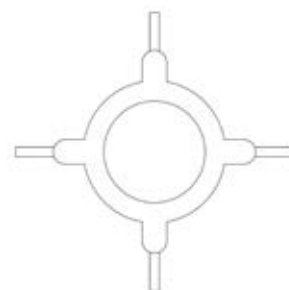

GIMBLE

A gimble is a round metal ring attached to the lampshade that fits the lampshade to the table lamp, floor lamp or pendant light.

The gimble height is measured from the base of the shade, as standard table lamp and floor lamp gimbles are 2.5" from the base of shade, and wall lights 1.5" from the base of the shade.

ES Gimble

40mm internal diameter.
Used with ES (E27) lamps.

BC Gimble

30mm internal diameter.
Used with SES (E14) and G9 lamps.

Keyhole Wall Fixing

This method is used with securing a shade to the wall, this allowing the shade to sit as flush as possible. Used on a selection of wall lights which have this symbol. 

PLEATS

Gathered pleats are formed by pinching the fabric at the top and bottom of the shade, resulting in a soft informal feel.

Box pleats are made up of two wide vertical pleats, alternatively raised and met.

Knife pleats consist of vertical folds of equal width and are sharply pressed.

LIGHT OUTPUT

LININGS

When choosing your beautiful lampshade, have a think about the lining. Our trademark Cream Card provides a subtle glow but needn't be the only option.

Elegant Champagne Card emits a warm light, and limits the contrast between outer and lining colours. It works very well with both Gold and Silver painted finishes.

Gold and Silver card both block out the light through the body of the shade, and bounce the light around the inside of the shade and above and below. Gold has a rich and warm colouring, with Silver providing a cooler, more contemporary light.

Silk or Satin linings are a lovely way to customise design and offer a softer alternative to card linings. It's easy to create another layer of drama, impact or flair by changing the character of the light. From bright and practical to muted and atmospheric, all our fabrics can be interchanged between inner linings and external fabrics. Amongst our favourites are Manilla silk for its soft warmth and Wolf silk for its subtle, understated elegance, versatile enough to use with both linens and silk.

Do contact us for swatches and advice.

STYLING AND BESPOKE LAMPSHADES

Experience has taught us that styling with shades can enrich a scheme greatly.

PLEATS

Pleating and gathering can really change the style of a shade. Gathering a linen creates a relaxed vibe, but gather a velvet and it creates something more luxurious. Pattern introduces a bohemian feel, formal pleats such as knife and box can achieve a classic look.

BESPOKE

If you're looking for something totally unique you can customise every aspect of your shade, or indeed, invent a completely brand-new shape. Shades can also be made with your own fabric for your outer or inner.

FEATHER CUSTOMISATION

As well as our stunning collection of feather shade, we can also create a completely bespoke piece with feathers matched to any colour of your choice. These feathers are expertly dyed, layered and stitched by hand onto a satin lining by our lampshade maker in the UK. We then pair each shade with a corresponding fabric lining and trim which we will source on your behalf. The end result is a beautiful, one of a kind, shade, unique to your requirements.

LAMP SHADE ACCESSORIES

Our shades can be used for many different solutions. In addition to interchanging shapes on our own lampbases, we can help create bespoke ceiling and wall shades. To aid this, we have a range of accessories below. Please discuss any other requirements with our team, each piece is wired to order and the specification can be customised.

including ceiling rose, rod length and fixture

Custom rod lengths are available upon request, contact Head Office for a quotation

3. CUSTOMISATION

At Porta Romana every product is made-to-order by our skilled team. It's that expertise which means that we can offer so much flexibility and customisation. From smallest details of the wiring specification, to changing the proportions of a piece of furniture or designing a totally bespoke piece.

We come across new and interesting requests every day and we enjoy the very collaborative process of creating a unique piece. Naturally there are some limitations and when that happens we always explore other options.

DECORATIVE FINISHES

Each Porta Romana painted piece is generally offered in two or three standard finishes, with the help of our team, you can choose from up to thirty different painted finishes to create your perfect combination without any additional cost.

Additionally, there is opportunity to work with our artists to adjust an existing finish to colour match, by lightening, darkening or incorporating a different texture for example.

LIGHTING

The wiring details that can be customised include the colour and length of flex, where the switch is located or even if the lamp has a switch at all. The lampholder and other metalwork details are available in nickel, bronze and brass options on many lamps.

If you require a bespoke drop for your ceiling lights or you are buying several pendants to cluster together our design and technical team can work with you to visualise your design.

Cluster of Orb pendants on a custom ceiling canopy

LAMPSHADES

Lampshades provide the ultimate opportunity for customisation and we always suggest that you explore the linings, and light output to achieve the perfect atmosphere for your interior.

FURNITURE

Furniture that is marked with the  tape measure symbol is very suited to customisation, from adjusting the proportions, to changing the top finish, either selecting from our 10 different top finishes or if there is not a top within the range that suits then the base can be provided separately.

Giacometti Coffee Table
W: 1200mm D: 1200mm

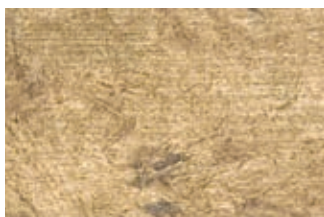

Miro Console with reduced width top 1200mm

Changing the painted finish works in just the same way as our lighting and in collaboration with our team more significant changes to elements of a design, like changing the texture of a frame are possible too.

SAMPLING

We have a wide range of samples across our entire collection, from fabric and painted swatch samples to ceramic, glass and furniture top samples, all available from our Head Office and Chelsea Harbour Showroom. The lampshade and decorative finishes shown in this brochure are a useful guide and we always recommend that you see a sample as you refine your selection.

4. PRODUCT AND CARE INFORMATION

PLEASE ALWAYS ENSURE THAT LAMPS ARE DISCONNECTED FROM A LIVE ELECTRICAL SOURCE BEFORE CLEANING

CERAMIC AND GLASS

Porta Romana blown glass products are individually made and so subject to variance in shape, colour, size and air bubbles in each lamp.

To maintain the appearance of our ceramic and glass products we recommend dusting using a soft, dry, lint-free cloth. Mirror glass should be treated with proprietary cleaner, except on the Antiqued mirror glass where abrasive cleaning products should be avoided.

METAL AND PLATED PRODUCTS

Our Nickel products require the light use of a proprietary silver cloth periodically.

Bronze and Specialist Brass finishes can, if handled incorrectly, result in uneven patination and so we recommend the white gloves included with the product are used for installation and subsequent handling. We also recommend that these finishes are kept free from moisture and condensation as a damp atmosphere and changing temperature can cause discolouration.

PAINTED AND GILDED DECORATIVE FINISHES

Painted and Gilded Decorative finishes should be dusted with a soft, dry, lint-free cloth without the use of any cleaning products.

PERSPEX

Perspex should be dusted with a soft, dry, lint-free cloth. A damp cloth can be used if required, followed by a buff with a dry cloth. Do not use any cleaning products or micro fibre cloths on polished Perspex.

SLATE

The natural slate used in our products may have charming irregularities where the natural mineral deposit is visible. To maintain the appearance of the slate a damp cloth can be used on marks and spills or a small quantity of white spirit for more stubborn stains.

LAMP SHADES

Our lampshades, particularly the silk, should be kept away from direct sunlight. Dust can be removed by gently vacuuming or lightly dusting with a dry, lint-free cloth.

FURNITURE

Porta Romana furniture is hand-polished or hand-painted and lacquered, and special care and attention is required to retain their finish and quality. If your furniture is destined for an area where it will receive heavy wear then we are able to quote to provide of a protective glass top.

Furniture should not be placed in direct sunlight or have hot or cold items directly on the surfaces. Items on the surface of the furniture should not be dragged across or the furniture itself always lifted clear of the floor when moving.

FURNITURE TOPS

We recommend that our furniture tops should be dusted regularly using a dry micro-fibre cleaning cloth with additional instructions as follows,

LACQUERED TOPS INCLUDING WOOD FINISHES, FAUX CONCRETE AND FAUX LIMESTONE

Lacquered tops should be cleaned with a silicone free furniture polish. Avoid using abrasive cleaners or hardwax which will be harmful to the finish. Always avoid spraying polish directly on the furniture and spray onto the cleaning cloth

Any spills should be blotted immediately, avoiding using a wiping or buffing motion.

FAUX SLATE MATT LACQUERED TOP

Any stains should be removed using a glass cleaner using a soft lint free cloth and a blotting action. The surface of a matt top may burnish if rubbed with an abrasive material or cleaner.

WALL FIXING OF FURNITURE

Where furniture items are listed as requiring wall fixing, the wall fixing brackets are included as part of the design of the product. Consoles which are fixed to the wall are not designed to bear an unreasonable weight and care must be taken to distribute any load evenly.

UPHOLSTERED FURNITURE

All upholstered furniture is supplied with a schedule 3 interliner. Upholstery fabric supplied to Porta Romana must be either 75% natural fibre, cotton, flax, viscose, modal, silk or wool OR be appropriately fireproofed to comply with Furniture and Furnishings Fire & Safety Regulations 1988.

Prior to confirming your Customer own material (COM) order please send your fabric to Head Office where we will check suitability. At this stage we will also confirm exact quantity of fabric required.

5. WIRING INFORMATION

GENERAL

- All lighting products are supplied wired for UK and European 220-240 V voltage. Alternatively we can supply product wired for other worldwide regions. Different pricing may apply.
- Wiring instructions will be shipped with each wall light or ceiling fixture. They are to be used as a guide only. All fixed lighting products must be wired in by a qualified electrician.
- Many wall lights require internal wall connection, please request a data sheet if more information is required.
- Where a plug is supplied it will be a 3 amp square pin plug for UK destinations or a 2 pin Schuko plug for Europe.

FLEX INFORMATION

- As standard the flex exits at the base of the lamp. Where a table lamp is listed with  the flex exits at the bottom of the lamp holder below the shade.
- Table lamps are supplied with approximately 160cm of flex. The in-line switch (on/off) is positioned 20cm from the base of the lamp.
- Floor lamps are supplied with approximately 230cm of flex. The foot switch (on/off) is positioned 30cm from the base of the lamp.
- Please discuss any other requirements with our team, each piece is wired to order and the specification can be customised.

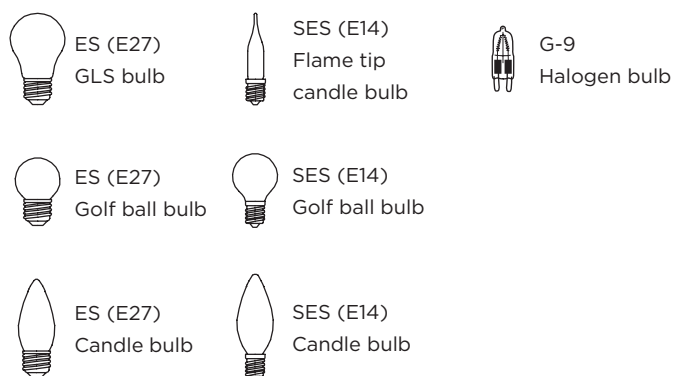

BATHROOM WALL LIGHTS

- Where a product is shown with a tap symbol the lamp holder fitting is entirely sealed with a glass dome cover and is IP44 Rated. This means that it is suitable for installation in interior locations subject to moderate degrees of moisture, such as bathrooms.
- The recommended silk shade is not splash proof nor are the painted/plated finishes which may tarnish or deteriorate if they are in a steamy environment or subjected to water spray on a regular basis.
- If a wall light is intended to be fitted to a mirror it is advisable to contact Head Office to check suitability.
- Shades supplied with a bathroom wall light will have a shade ring fitting.
- Bathroom wall light specification:

LAMP	1 x Halogen G-9 Lamp
MAX WATTAGE	25W
VOLTAGE	220-240 V
- See page 184 for important warranty information.

LIGHT BULBS

- Light bulbs are included in your order. The light bulbs we supply are G9 Halogen ES/SES or Halogen Encapsulated at an appropriate wattage (not the maximum wattage).
- The maximum wattages for lamp bulbs are labelled on both the lamp holder and inside the lampshade. Where these differ please be guided by the lowest wattage. Always adhere to this advice for your safety.
- The following images may help with the identification of the style of bulb listed.

HOW MANY LUMENS DO YOU NEED? (240V)

Brightness in lumens →	220+	400+	700+	900+	1300+
Standard (Incandescent bulb)	25w	40w	60w	75w	100w
Halogen	18w	28w	42w	53w	70w
CFL	6w	9w	12w	15w	20w
LED	4w	6w	10w	13w	18w

6. TERMS AND CONDITIONS

ORDERS, PAYMENT AND PRICING

- All orders must be received in writing, and any amendments to your order must also be received in writing.
- Unless credit account terms have been agreed, all goods ordered must be paid for on a proforma basis. All goods for supply outside of mainland UK will be supplied on a proforma basis only.
- For proforma customers delivery times are quoted on receipt of payment. For all other orders, delivery times are quoted on receipt of order and are to be treated as estimates only.
- Prices are in Euros and may be subject to change without notice depending on exchange rate fluctuations.
- Prices are exclusive of freight, taxes and duties.
- Orders of a high value or custom nature may require a significant deposit or special payment terms to be agreed prior to production.
- Preferred payment methods are bank transfer or debit/credit card. Cheques are accepted but 10 working days must be allowed for clearance. A despatch date cannot be confirmed until the clearance time has elapsed. A 2.5% fee will be incurred for payment with American Express. Porta Romana Limited will not accept local bank charge deductions.
- Separate charges may apply for country specific import certification requirements such as SASO, EUR1, ATR1 and Certified Invoices for customs clearance.
- Prices quoted may be subject to change without prior notice at the sole discretion of Porta Romana Limited.
- No minimum order quantity is required.
- Title to goods shall only pass when payment has been received in full.
- Porta Romana Limited reserves the right to discontinue items without notice.
- Prices are for products designed and wired for use in Europe. For UK or US products please see the relevant Product Guide.

DAMAGES AND RETURNS

- In the event of receiving damaged or missing goods, and where liable, Porta Romana Limited will endeavour to rectify the situation as promptly as possible. Please help us by

following the below procedure.

- All damages and shortages must be notified within 3 working days of receipt of goods. Please include a photograph of damaged item and packaging with a returns form.
- Porta Romana Limited must be notified if goods are not due to be unpacked within 3 days of receipt.
- A replacement order will be sent upon receipt of a completed returns form.
- Porta Romana Limited will take no responsibility for damages incurred in transit when using your own shippers.

CANCELLATIONS

- Orders cancelled once manufacture is under way, or goods returned for reasons of unsuitability will be accepted at the management's discretion subject to a minimum returns charge of 20% plus transport costs. Where goods are accepted for return, it is the responsibility of the client to ensure that they are received in a saleable condition and any damage sustained will be charged back to the customer.
- Porta Romana Limited is unable to accept items for re-stocking later than 60 days from date of invoice.

COLLECTIONS

- Once goods have been collected and signed for by your designated shipper they are no longer the responsibility of Porta Romana Limited.
- A signature from your courier on collection confirms that they are receiving your order in good condition and that all boxes have been labelled in accordance with their specifications.
- Your shippers should also advise in advance of any special documentation required and liaise with you directly regarding insurance for your shipment.
- All goods provided on an ex-works basis are subject to VAT sales tax at the prevailing UK rate, currently 20%. This charge will be fully refunded where a Proof of Export is provided within 90 days of ex-works collection and/or full payment, whichever is the earlier.
- Orders packed ready for shipping which are not collected within 2 weeks will be subject to storage charges.

SHIPPING

- All orders are despatched from our Head Office in Surrey and not via our London showroom.

UK MAINLAND

- Mainland UK deliveries are on a standard overnight service on a stated day only.
- Special deliveries at specific times are by arrangement only and may incur additional costs.
- Delivery of furniture and other vulnerable items is by quotation. Crating charges may apply.
- Please request a quotation for non-mainland UK deliveries.

OVERSEAS

- Standard European deliveries are priced at 7.5% of order value with a minimum of €75.
- Orders requiring crating or special transportation will be quoted on an individual basis.
- Separate charges will apply for country specific import certification requirements such as SASO, EUR1, ATR1 and

Certified Invoices for customs clearance.

- All other Worldwide deliveries are quoted on an individual basis.
- Shipments to destinations within the UK will be subject to VAT.
- All goods provided on an ex-works basis are subject to VAT sales tax at the prevailing UK rate (currently 20%). This charge will be fully refunded where a Proof of Export is provided within 90 days of ex-works collection and/or full payment, whichever is the earlier.

WHITE GLOVE DELIVERY SERVICE

Available throughout Great Britain & Western Europe, please contact Head Office for a quotation.

- Items are transported from our Head Office in Surrey, UK and placed directly in the room you specify.
- Packaging will be removed and crates may not be required.
- Please note that this service may be slower than standard shipping options.
- Please allow 48hrs for a shipping quote.

7. POLICIES, STANDARDS AND WARRANTY

WARRANTIES

Porta Romana Limited is a Lighting Association "LIAQA" accredited company. All lighting products are made using the finest materials and wiring assembly processes are carried out and monitored to the highest standards. Unless particularly delicate features of a product design are either obvious or specifically drawn to the attention of the buyer or user, it is warranted that all such items:

- are of contract quality and suitable for use in commercial interiors
- wired and tested to all relevant, and current standards and CE marked
- provided with Certificates of Conformity as and when required, to the following standards BS 4533 Section 102.1: 1990 EN 60598-2-1: 1989 BSEN 60598-1-2015 Fixed General Purpose Luminaires; and BS EN 60598-1-2015, BS EN 60598-2-4-1998 Portable General Luminaires
- all products are assembled with the use of British Standard or European Standard components

NORTH AMERICAN (UL + CUL LISTED)

Porta Romana Limited has UL standard approval to supply lighting product bearing the UL and CUL mark under the following file numbers:

- E310263 Incandescent, Surface Mounted Luminaires
- E467482 LED, Surface Mounted Luminaires
- E314811 Luminaires Portable
- All products are assembled using UL listed/recognised components to a minimum standard as required by Underwriters Laboratories Inc.

All other warranties either express or implied, are expressly excluded, including the warranty of fitness for a particular purpose.

BATHROOM WALL LIGHT WARRANTY

Where a Wall Light/Sconce is specified as being suitable for Bathroom use, the suitability is warranted only with regard to the regulatory approval for the wiring system which has been approved with IP44, IP65, UL and/or CUL ratings for damp locations. The Wall Light/Sconce is not warranted for bathroom use in terms of construction material, finish or lampshade material and the suitability on these grounds must be judged by the Interior Designer or the end user based on their understanding of the conditions of the space for which the Wall Light/Sconce is intended.

GENERAL

Porta Romana Limited offers a 2 year warranty on all products except lampshades (where a 1 year warranty applies) against manufacturing defects. This warranty excludes damage resulting from shipping, accident, alteration, misuse, tampering, negligence, abuse, or ordinary wear and tear.

Porta Romana Limited is not responsible for damages relating to natural fading or discolouration, oxidation, humidity, prolonged exposure to sunlight or salt air or other unsuitable environmental conditions.

Wood, stone, glass, iron, brass, and other decorative materials vary in tone, colour, character and texture: variations are inherent in such materials and finishes and should be expected.

DESIGN POLICY AND COPYRIGHT

All products are exclusive designs belonging to Porta Romana Limited. Please do not submit design sheets featuring Porta Romana products to other manufacturing companies. Any manufacturer found to be re-producing a Porta Romana design will be breaching copyright or EU Design Right laws. As members of ACID we actively pursue any infringement of Design Rights.

WEBSITE POLICY

Please contact Porta Romana Head Office in advance of designing a website which includes any Porta Romana images. In appropriate instances use of images will be allowed at the sole discretion of Porta Romana and subject to signing a partner image licence and the following conditions.

- All websites featuring Porta Romana images must be approved before going live
- Products must not be available for online purchase
- No prices should be detailed in any circumstances
- The text 'From the Porta Romana collection' must be included alongside any images featured
- Porta Romana images are not to be changed or altered in any way
