# 1. HOW TO USE THIS GUIDE

## DIMENSIONS AND WEIGHTS

- Dimensions and weights are provided as a guide. All Porta Romana products are made by hand and variations can occur in some products.
- Where a dimension is shown as an approximate value, i.e. the blown glass products, the variation can be as much as 35mm.
- Where dimensions are shown in inches they are rounded to the nearest 1/4".
- HEIGHT OF TABLE LAMP is always measured from the base of the item to the bottom of the lamp holder.
- HEIGHT WITH SHADE is measured from the base of the item to the top of the lampshade.
- HEIGHT OF WALL LIGHT is measured from the base of the item to the bottom of the lamp holder OR to the top of the product (whichever is the highest).
- PROJECTION OF WALL LIGHT includes the recommended lampshade.
- TOTAL DROP OF CHANDELIER includes the ceiling rose, one metre of chain and fixture.
- MINIMUM DROP OF CHANDELIER includes the ceiling rose, minimum length of chain possible and fixture. The ceiling rose depth and chain or rod lengths are also listed separately.
- LAMP SHADE DIMENSIONS are shown BASE X TOP X SLOPE or BASE X DEPTH X SLOPE (see images below) unless otherwise detailed.

## KEY

Symbols have been used to note an important detail of a product.

-  Items with this symbol are not suitable for rodding and bolting (for use on yachts). See page 102 for more information.
-  Items with this symbol have external wiring, i.e. the flex exits from the lampholder.
-  The lampshade that accompanies this product has keyhole fixings which require attaching to the wall.
-  Items with this symbol are suitable for use in bathrooms. See page 102 for more information.

## FLEXES

- Table lamps are wired with Silver, Brown or Charcoal silk flex. Some coloured glass lamps have colour co-ordinated flex i.e. Magenta.
  - Silver flex is supplied with Nickel/Silver/Perspex/Glass finishes.
  - Brown flex is supplied with Brass/Gold/Bronze finishes.
  - Charcoal flex is supplied with Slate bases.
- Ceiling lights are supplied with colour co-ordinated flex.
  - Grey flex is supplied with Silver decorative finishes.
  - Charcoal flex is supplied with Dark Silver decorative finishes.
  - Gold flex is supplied with Brass and Gold decorative finishes.
  - Brown flex is supplied with Bronze and Bronzed/Copper decorative finishes
  - Cream flex is supplied with White decorative finishes.

## QUICK SHIP SERVICE

Items marked with **QUICK SHIP** are available on our Quick Ship service in the finish and shade combination listed only. If requested this product will be despatched by express courier from our UK Head Office within 72hrs of order confirmation and receipt of payment. Subject to stock levels. See page 97 for further details.

## PRICING

- Retail prices are shown in Euros and are exclusive of tax, duties and freight.
- Shade prices are shown in silk and satin options with cream card lining. Please refer to the lampshade section for alternative lining options and pricing.
- Linen and silk linen shades are priced the same as satin shades.
- Charges for crates are not discountable.

## 2. LAMPSHADE GUIDE

Lampshades are available in Silk, Satin, Linen, Silk Linen or Couture options as listed below. As standard they are lined with Cream card.

Gold, Silver, Champagne, White card and Clear laminate options are available and most shades can be lined with any Silk or Satin listed. Please see the following pages for all shade sizes and alternative fittings.

STRETCHED SILK LAMPSHADES are made from 100% Silk. Dupion or Haboti qualities:

103 Natural	317 Black	606 Emerald
301 Putty	401 Mink	705 Platinum
302 Silver	404 Ice Blue	706 Slate Blue
303 Grape	405 Charcoal	708 Woodruff
304 Taupe	502 Bay	733 Wolf
313 Vellum	601 Magenta	734 Ink
314 Pearl	603 Saffron	760 Lime
315 Manilla	604 Prune	
316 Truffle	605 Ivory	

STRETCHED SATIN LAMPSHADES are made from 100% Silk. Crepe or Matt Crepe qualities:

701 Dove	710 Sepia	725 Cobalt
702 Wren	711 White	726 Honey
703 Smoke Blue	712 Black	727 Fuchsia
704 Zinc	713 Ruby	729 Warm Grey
707 Liquorice	723 Mint	747 Pidgeon
709 Peat	724 Turquoise	748 Damson

LINEN AND SILK LINEN (Same price band as the Satin shades)

765 Grey Ostrich Feather	771 Blackcurrant Ikat Kite
773 Darcy Pink Duck Feather	772 Prussian Blue Ikat Sultan

\* Finishes recommended on straight sided shades only.

### FIXING STYLES

1. BC Gimble 30mm internal diameter  
Used with SES (E14) and G9 lamps
2. ES Gimble 40mm internal diameter  
Used with ES (E27) lamps
3. Finial Fitting 10mm internal diameter  
Used on VLB12, SLB37 and SLB37L
4. Keyhole Fitting used on selection of wall light shades. These are indicated with a  symbol in the wall light section.

### REDUCER RINGS

Reducer rings are available to convert ES gimbles (image 2) to BC gimble (image 1) for use on customers own table or floor lamps.

### BESPOKE LAMPSHADE SERVICE

LININGS are available in Silk and Satin or Gold, Silver, Champagne, Cream and White card. Clear lining is available to maximise light output. Light Block inner lining is available to prevent coloured Silk or Satin linings distorting the colour of the outer shade when lit.

DIFFUSERS OR BAFFLES can be used on most table and floor lamp shades. Diffusers can be fitted to the base of the shade to shield the view of a bulb or a Baffle can be fitted to the top of a shade to reduce the glare from the bulb. Diffusers and Baffles are available in Perspex in either Champagne or Frosted White finishes.

CUSTOMER OWN DIMENSIONS can be quoted for ceiling shades, shades for wall lights, table and floor lamps. Please specify fitting required when requesting a bespoke shade quote.

RE-COVERING customers existing frames is possible providing that frames are in good condition.

CUSTOMER OWN MATERIAL can be used on all lampshade sizes. A sample of fabric must be seen and approved for suitability by Head Office prior to confirming a COM order. Fabric must be supplied on a roll NOT folded as this may result in creasing in the final product.

TRIMS can be selected from our collection of silks or satins or use Customer Own Trim to add a decorative element to the top and/or base of lampshades.

PLEATED LAMP SHADES are available in Box, Knife and Vertical Gather. Please contact Head Office for pricing.

WALL SHADES can be adapted to ensure you have the perfect solution for your space.

Key hole fittings for wall light shades fix the shade directly to the wall. This minimises the gap and the amount of light escaping from the back of the shade (a surcharge may be applicable).

Corridor shades can be used in conjunction with some wall lights to minimise projection (maximum depth 100mm).

#### FABRICS BY THE METRE

All fabrics are available to purchase by the metre. Minimum order quantity is 5 metres.

#### IKAT FABRICS

Our stunning ikat fabrics are hand woven in Uzbekistan. One weaver can create 3m of fabric a day - it is very labour intensive and it's rustic charm is the reason we fell in love with ikats.

Hand weaving is the real deal - our ikats are not printed and the dyes are natural. For example the blue tones in Kite and Sultan are Indigo dyed, which is produced from the leaves of the delicate flower.

The fabric is hot pressed during finishing to achieve the traditional sheen, which can leave irreversible creasing. These complex fabrics are not flawless - this adds to the beautiful characteristics of an artisan product and helps us to make an emotional connection to traditions past.

#### PRODUCT INFORMATION

Porta Romana lampshades are made from a beautiful range of silks and satins. It is in the nature of some silks to have random slubs throughout.

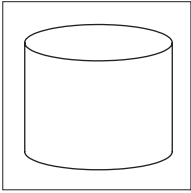

Please be aware that colours may vary slightly from batch to batch. It will not be possible to guarantee an exact match to any product that you may have previously purchased.

Silks tend to be more susceptible to fading than most other fabrics, and are not guaranteed to be lightfast. We recommend that your lampshades are positioned away from direct sunlight.

#### PRICING AND SURCHARGES

- Prices listed in the product sections are for Fabric Lampshades with Cream card Lining
- Apply a 15% surcharge for the following linings: Gold, Silver, Champagne, White card or Clear laminate
- For Fabric linings please see the following pages for individual prices
- Apply a 20% surcharge to Silk Lampshades with Cream card lining price for Customer Own Material (COM)
- Shades designed for specific products that are unsuitable for use separately (i.e. Lilburn wall light shades) are not included in the following tables. For dimensions and prices please see the individual product sections.
- For a bespoke lampshade quote please email [bespokeshades@portaromana.co.uk](mailto:bespokeshades@portaromana.co.uk)

#### HOW TO ORDER

Select Quick Ship products, confirm stock availability with Head Office, place order by fax: +44 (0)1420 23008 or email: sales@portaromana.co.uk

#### HOW TO PAY

Payment is required at time of purchase. Payment can be made by credit or debit card.

#### DELIVERY

Items will be despatched from our Head Office within 72 hours.

## 4. ADDITIONAL PRODUCT INFORMATION

### ALTERNATIVE DECORATIVE FINISHES

Our painted products are generally supplied with two or three standard finishes. If you require an alternative finish this is usually possible.

The following painted finish options are available and can be viewed on our website and app.

Bright Gold	Brushed Silver	Coca
Burnished Gold	Burnished Silver	Fired Copper
Decayed Gold	Burnt Silver	French Brass
Gurney Gold	Decayed Silver	Green Bronze
Mayan Gold	Gurney Silver	Italian Rust
Pale Gold	Mayan Silver	Plaster White
Scratched Gold	Scratched Silver	Cosmic Silver
Venetian Gold	Venetian Silver	Cosmic Gold
Versailles Gold	Very Decayed Silver	New Bronze
White Gold	Bronzed	Light French Brass
Bright Silver	Chalk	Scruffy White

Occasionally your chosen finish may not be suitable for the product you have selected. In this instance a sales adviser will contact you to discuss alternative options. Porta Romana products are individually hand made to order therefore it is not possible to guarantee an exact match to any product that you may have previously purchased.

### ALTERNATIVE WOOD/POLISHED TOP FINISHES

Changing a wood or polished top to one of the options below will incur the following surcharges

Side tables, 25%

Console Tables, 30%

Coffee and Centre Tables, 35%

Options available are:

Black Lacquer	Cream Lacquer
Dark Fumed Oak	Pippy Oak
Faux Limestone	Faux Slate
Faux Shagreen *New for 2014*	

### FURNITURE

Porta Romana furniture is either hand-polished or hand-painted and lacquered. The nature of these products means that they do require some special care and attention in order to retain their finish and quality. Any extreme wear and tear can be detrimental to the finish and we do not recommend use in a contract situation. Please contact Head Office for advice if your furniture is destined for an area where it will receive any heavy wear. We are very happy to quote for provision of a protective glass top. More specific care instructions can be found on page 101.

### BASE AVAILABLE SEPARATELY

Some items of furniture are available to purchase without a top. This is often requested if a stone or granite top is being selected for local purchase. All pieces listed 'base available separately' are strong enough to withstand a stone top of similar dimensions to the standard top.

### WALL FIXING

Where furniture items are listed as requiring wall fixing, the wall fixing brackets are part of the design of the product. A standard screw pack is supplied but may not be suitable for all wall types. Consoles which are fixed to the wall are not designed to bear an unreasonable weight and are not all suitable for custom sizing. Please refer to individual product information. Care must also be taken to distribute any load evenly.

### UPHOLSTERED FURNITURE

All upholstered furniture is supplied with a schedule 3 interliner. Upholstery fabric supplied to Porta Romana must be either 75% natural fibre, cotton, flax, viscose, modal, silk or wool OR be appropriately fireproofed to comply with the Furniture and Furnishings Fire & Safety Regulations 1988.

A sample of Customer own material (COM) must be seen and approved for suitability by Head Office prior to confirming an order. Please be aware that a patterned fabric may alter the quantity of fabric required. A surcharge of 30% is applied for upholstery with leather or mohair fabric.

### BLOWN GLASS

Blown glass products are unique and individually made. As a consequence there will be a variance in the finish of each lamp. Porta Romana will make every effort to keep that variation to a minimum and will match pairs upon request. Slight differences in shape, colour hue, size and the air bubbles in each lamp are to be expected.

### SLATE

Slate is used in several of our designs. Slate is a natural mineral and therefore can contain irregularities that characterise its authenticity. There are sometimes natural mineral deposits visible which should not be treated as a defect but as part of the inherent charm of natural slate.

### CUSTOM SIZING

Custom sizing refers to a change in size of a base, top OR an entire piece of furniture. It can also apply to Upholstered Furniture range and Mirrors. Please refer to specific product information to clarify suitability for custom sizing.

The resizing of an item will require a quotation.

Please be aware of the aesthetic impact of changing sizes and proportions of furniture. Our experts can discuss any aspect of your custom piece with you. Please contact Head Office for more information.

## 5. CARE INFORMATION

In order to maintain the appearance and nature of your products we recommend that you follow the care instructions below.

### LIGHTING

ALWAYS ENSURE THAT LAMPS ARE DISCONNECTED FROM A LIVE ELECTRICAL SOURCE BEFORE CLEANING

All lamps must be picked up from beneath the base as their weight cannot be supported by holding the lamp holder. Damage will occur if table lamps are not handled in this manner and Porta Romana will not be responsible for replacement or repair.

- SLATE lamp bases should require very little maintenance. Marks and spills should be wiped with a damp cloth and white spirit can be used for more stubborn stains.
- PERSPEX lamp bases and bodies should be cleaned with a soft, dry lint-free cloth. A damp cloth can be used if required, followed by buffing with a dry cloth. No cleaning agents should be used.
- BRONZE and BRASS lamp bases and bodies should be dusted with a soft, dry, lint-free cloth.
- NICKEL and SILVER-PLATE lamp bases and bodies should be dusted with a soft, dry, lint-free cloth. Light use of a proprietary silver cloth periodically. Nickel must be kept free from moisture or condensation.
- GLASS and CERAMIC lamp bases should be dusted with a soft, dry, lint-free cloth. Wipe with a damp cloth if necessary.
- PAINTED and GILDED finishes should be dusted with a dry, lint free cloth. No cleaning products should be used.

### LAMPSHADES

- Vacuum gently to remove dust or dust with a dry, lint free cloth.
- Keep silk lampshades away from direct sunlight.

### MIRRORS

- Use a proprietary glass cleaner on mirror glass area ONLY.
- Treat frame as other painted finishes.

### FURNITURE

#### • POLISHED WOOD FURNITURE

- Dust frequently using a soft lint-free absorbent cloth. Always polish with the grain of the wood, not against it.
- Avoid wax and silicone polishes, as they may be harmful to the finish.
- Clean up spills immediately. Use a blotting action rather than a wiping action.
- Keep wooden furniture away from sources of heat and direct sunlight.
- POLISHED GLOSS TOPS (Black Lacquer/Cream Lacquer/Conker Gloss)
  - Gloss Surfaces should be cleaned using a micro-fibre cleaning cloth.
  - Any marks should be removed with silicone free furniture polish. No abrasive cleaners or hard wax should be used as this will have a detrimental effect.
- MATT FINISH TOPS (Dark Fumed Oak/Pippy Oak/Faux Limestone/Faux Slate/Faux Shagreen)
  - Matt surfaces should be cleaned using a micro fibre cleaning cloth.
  - This surface may burnish if rubbed with an abrasive material or cleaner so any stains should be removed with glass cleaner, followed up by buffing with a dry cloth.

#### GENERAL FURNITURE ADVICE

- Use pads, cloth or felt to protect surfaces from plastic, rubber, hot dishes, beverages, vases etc.
- Lift and place objects, do not drag them across the surface of the furniture.
- Rotate accessories on furniture so they do not sit in the same spot all the time, to avoid photosensitive imaging.
- Never drag your furniture when moving, always lift clear of floor.

## 6. WIRING INFORMATION

### GENERAL

- All lighting products are supplied wired for UK and European 220-240 V voltage. Alternatively we can supply product wired for other worldwide regions. Different pricing may apply.
- Wiring instructions will be shipped with each wall light or ceiling fixture. They are to be used as a guide only. All fixed lighting products must be wired in by a qualified electrician.
- Many wall lights require internal wall connection, please request a data sheet if more information is required.
- Where a plug is supplied it will be a 3 amp square pin plug for UK destinations or a 2 pin Schuko plug for Europe.

### FLEX INFORMATION

- As standard the flex exits at the base of the lamp. Where a table lamp is listed with  the flex exits at the bottom of the lamp holder below the shade.
- Table lamps are supplied with approximately 160cm of flex. The in-line switch (on/off) is positioned 20cm from the base of the lamp.
- Floor lamps are supplied with approximately 230cm of flex. The foot switch (on/off) is positioned 30cm from the base of the lamp.

### BATHROOM WALL LIGHTS

- Where a product is shown with a tap symbol the lamp holder fitting is entirely sealed with a glass dome cover and is IP44 Rated. This means that it is suitable for installation in interior locations subject to moderate degrees of moisture, such as bathrooms. (See table below).
- The recommended silk shade is not splash proof nor are the painted/plated finishes which may tarnish or deteriorate if they are in a steamy environment or subjected to water spray on a regular basis.
- If a wall light is intended to be fitted to a mirror it is advisable to contact Head Office to check suitability.

- Shades supplied with a bathroom wall light will have a shade ring fitting.
- Bathroom wall light specification:
 

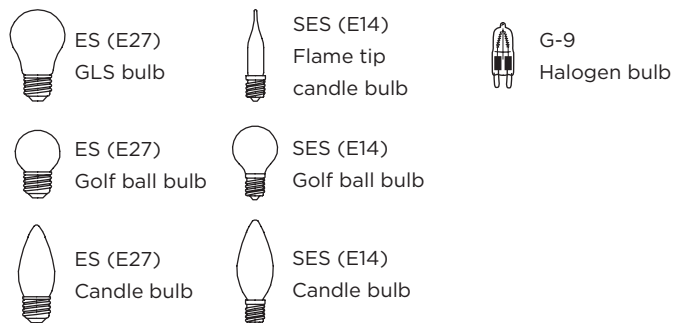

LAMP	1 x Halogen G-9 Lamp
MAX WATTAGE	25W
VOLTAGE	220-240 V
SURCHARGE	€70
- See page 104 for important warranty information.

### ROD AND BOLT (FOR YACHTS AND HOTELS)

- Many lamps can be fixed to suitable furniture using a rod and bolt system.
- Products that are unsuitable for rod and bolt will have the following symbol .
- Please contact Head Office for more information.

### LAMP BULBS

- Lamp bulbs are not included with your order unless specified.
- The appropriate maximum wattages for lamp bulbs are labelled on both the lamp holder and inside the lampshade. Where these differ please be guided by the lowest wattage. Always adhere to this advice for your safety.
- The following images may help with the identification of the style of bulb listed.

### BATHROOM IP RATING GUIDE

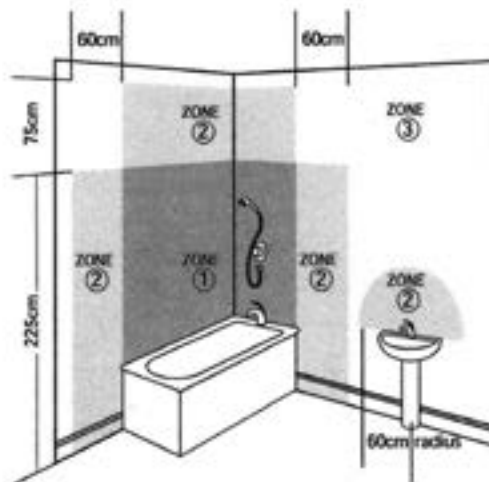

Porta Romana Bathroom wall lights are all rated at IP44 Zone 2

An IP rating indicates a fittings resistance to solid objects and water. The first number relates to solid objects and the second to water/moisture. The higher the numbers the more resistant the fitting is.

The diagram shown will help identify the appropriate zone in which the fitting is to be located. Once the zone is established, refer to the list below to confirm IP rating required.

- |   |  |
|---|--|
| <p><b>ZONE 1 - IP65 (JETPROOF)</b></p> <p><b>ZONE 2 - IP44 (SPLASHPROOF)</b></p> <p><b>ZONE 3 - IP RATED NOT REQUIRED</b></p> | <p>Inside a shower or bath area where there is a shower head or detachable shower handset.</p> <p>If there is no danger of a direct jetspray being accidentally applied to the fitting.</p> <p>Where there is no possibility that the fitting will be splashed with water, or steam will settle.</p> |
|---|--|

Please consult a qualified electrician who is familiar with the current IEE Regulations (17th edition). It is the electrician's responsibility to be satisfied that he is complying with the regulations and Porta Romana will accept no liability if wall lights are wrongly positioned.

# 7. TERMS AND CONDITIONS

## ORDERS, PAYMENT AND PRICING

- All orders must be received in writing, by email or fax. Any amendments to your order must also be received in writing.
- Unless credit account terms have been agreed, all goods ordered must be paid for on a proforma basis. All goods for supply outside of mainland UK will be supplied on a proforma basis only.
- For proforma customers delivery times are quoted on receipt of payment. For all other orders, delivery times are quoted on receipt of order and are to be treated as estimates only.
- Prices are in Euros and may be subject to change without notice depending on exchange rate fluctuations.
- Prices exclude any freight, duties or export taxes.
- Prices quoted may be subject to change without prior notice at the sole discretion of Porta Romana Limited.
- Preferred payment methods are bank transfer (BACS) or debit card. Cheques are accepted but 10 working days must be allowed for clearance. A despatch date cannot be confirmed until the clearance time has elapsed. A 2.5% fee will be incurred for payment with American Express.
- No minimum order quantity is required.
- Title to goods shall only pass when payment has been received in full.
- Porta Romana Limited reserves the right to discontinue items without notice.
- Prices are for products designed and wired for use in Europe. For UK or US products please see the relevant Product Guide.
- Porta Romana Limited reserves the right to pass on storage charges in the event of excessive delay in forwarding balance payment. This will be in writing in advance if any charge is to be applied.

## DAMAGES AND RETURNS

- In the event of receiving damaged or missing goods, and where liable, Porta Romana Limited will endeavour to rectify the situation as promptly as possible. Please help us by following the below procedure.
  - All damages and shortages must be notified within 3 working days of receipt of goods. Please include a photograph of damaged item and packaging with your notification.
  - Porta Romana Limited must be notified if goods are not due to be unpacked within 3 days of receipt.
- Porta Romana Limited will take no responsibility for damages incurred in transit when using your own shippers. A signature from your chosen courier on collection confirms that they are receiving your order in good condition, and that boxes have been labelled in accordance with their specifications. We advise that you check with your shipper that your order is appropriately insured for transit.

## CANCELLATIONS

- Orders cancelled once manufacture is under way, or goods returned for reasons of unsuitability will be accepted at the management's discretion subject to a returns charge of 20% plus transport costs. Where goods are accepted for return, it is the responsibility of the client to ensure that they are received in a saleable condition and any damage sustained will be charged back to the customer.
- Porta Romana Limited is unable to accept items for re-stocking later than 60 days from date of invoice.

## SHIPPING

- Delivery charges to most European destinations\* are as follows
  - Lighting Orders between €0 - €500 in value, packaging and carriage will be charged at €75 per shipment
  - Lighting Orders between €500 - €1200 will be charged at €100 per shipment
  - Lighting Orders between €1200 - €10,000 in value, packaging and carriage will be charged at 7.5% of the order value
  - Orders over €10,000 in value will be quoted on an individual basis
  - Furniture Orders requiring crating or special transportation will be quoted on an individual basis
- \* Exceptions include Norway and Switzerland where carriage charges will be quoted on an individual basis and include extra customs charges.

- All other Worldwide deliveries are quoted on an individual basis
- Quotes can be provided for White Glove delivery service throughout Western Europe.
  - Items are transported from our Head Office in Surrey, UK and placed directly in the room you specify. Packaging can be removed and crates are not required
  - Please note that this service may be slower than standard shipping options
  - Please allow 48hrs for a shipping quote
- Collections
  - Orders packed ready for shipping which are not collected within 2 weeks will be subject to storage charges
  - All goods provided on an ex-works basis are subject to VAT sales tax at the prevailing UK rate, currently 20% (January 2014). This charge will be fully refunded where a Proof of Export is provided within 90 days of ex-works collection.

## 8. POLICIES, STANDARDS AND WARRANTY

### DESIGN POLICY AND COPYRIGHT

All products are exclusive designs belonging to Porta Romana Limited. Please do not submit design sheets featuring Porta Romana products to other manufacturing companies. Any manufacturer found to be re-producing a Porta Romana design will be breaching copyright or EU Design Right laws. As members of ACID we actively pursue any infringement of Design Rights.

### WEBSITE POLICY

Please contact Porta Romana Head Office in advance of designing a website which includes any Porta Romana images. In appropriate instances use of images will be allowed at the sole discretion of Porta Romana and subject to the following conditions.

- All websites featuring Porta Romana images must be approved before going live
- Products must not be available for online purchase
- No prices should be detailed in any circumstances
- The text 'From the Porta Romana collection' must be included alongside any images featured
- Porta Romana images are not to be changed or altered in any way

### STANDARDS AND WARRANTY

Porta Romana Limited is a Lighting Association 'Code of Practice' accredited company. All lighting products are made using the finest materials and wiring and assembly processes are carried out and monitored to the highest standards. Unless particularly delicate features of a product design are either obvious, or specifically drawn to the attention of the buyer or user, it is warranted that all such items are:

- of contract quality and suitable for use in commercial interiors
- wired and tested to all relevant, and current standards and CE marked
- provided with Certificates of Conformity as and when required, to the following standards BS 4533 Section 102.1: 1990 EN 60598-2-1: 1989 BSEN 60598-1-2008 Fixed General Purpose Luminaires; and BS EN 60598-1-2008, BS EN 60598-2-4-1998 Portable General Luminaires
- assembled with the use of British Standard or European Standard components

### BATHROOM WALL LIGHT WARRANTY

Where a Wall Light is specified as being suitable for Bathroom use, the suitability is warranted only with regard to the regulatory approval for the wiring system which has been approved with either IP44 or IP65 rating. The Wall Light is not warranted for bathroom use in terms of construction material, finish or lampshade material and the suitability on these grounds must be judged by the Interior Designer or the end user based on their understanding of the conditions of the space for which the wall light is intended.
