ЭНЕРГОЭФФЕКТИВНОСТЬ

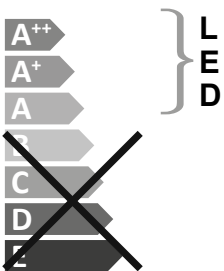

Во исполнение распоряжения Комиссии ЕС № 874/2012 от июля 2012, дополняющего Директиву 2010/30/ЕС Европейского парламента и Европейского совета о порядке маркировки всех осветительных приборов по категориям энергоэффективности, данный прайс-лист содержит коды энергоэффективности каждого прибора, соответствующие принятой маркировке (EL).

Энергоэффективность каждого прибора определена на основании технических характеристик на дату издания прайс-листа. Учитывая развитие производства источников света, компания Artemide проводит модернизацию продукции на базе доступности источников света и/или их энергетической классификации. Artemide оставляет за собой право устанавливать класс энергоэффективности продукции на основании одного из совместимых с ней источников.

На официальном сайте Artemide www.artemide.com в разделе “download area “ - “ energy label “ (прямая ссылка <http://www.artemide.com/download/energy-labels.action>) размещены этикетки энергоэффективности для каждого прибора. Информация постоянно обновляется.
